Testimonial – 16 November 2017

**Why we choose BCMTRAC**

After many months of searching for a suitable computer software management package to accommodate our Homeowner Associations and Body Corporates, we found “BCMTrac”, and we are so glad we did.

From the outset they spoke our language and they were extremely accommodating of our unique needs and changes, which they addressed with the greatest of ease. Together with their combined knowledge of the Industry, Accounting and Software Systems, made the migration process simple and the result is that we are “happy customers” 😊, and we haven’t even touched it’s full potential yet.

The system itself is a breeze packed with endless time saving functionality, and we would certainly recommend the BCMtrac, industry specific product and service. It has been a pleasure doing business with the entire team and we look forward to a long and mutually beneficial future with them.
